

### **GNLL Manager/Player Block Policy**

Parents may request to have one manager or player “blocked” from selecting their player during the draft process. The request needs to be submitted in writing to the Player Agent and must detail the reason for the request. The request must be submitted no later than 5 days prior to the draft. In order for a “block” to be considered, the player must have either played for or have direct experience with either the manager or player being blocked. All blocks will be considered and honored at the discretion of the Player Agent.
